PROTECTING OUR ENVIRONMENT AND WATER RESOURCES

A Workshop on Shaping the Future

As various sectors benefiting from and fulfilling the conservation duties of water resources in the Konya Closed Basin, we are coming together for a one-day workshop. In this workshop, we will begin discussing our expectations and solution proposals for the future of our water resources and nature. In the following stages, we will create models with the contributions of each of us. With these models, we will create a platform where we can try our solution proposals and provide mutual benefit.

This workshop does not require expertise in modeling and technology. We will lay the foundation of models that will work in a computer environment, developed by experts. Your contributions in this work are critical to the progress of the project.

We will be delighted to see you among us.

April 25, 2024, Thursday

09:30: Welcome

10:00-16:00: Workshop

Ramada Hotel, Konya
